Natural Disasters Through Infographics (Super Science Infographics)

Synopsis

"The facts about natural disasters are so big and devastating they could make your head explode! You hear about huge costs (like the \$360,000,000,000 in damage caused by the 2011 tsunami in Japan), huge speeds (the fastest-moving tsunami waves have been recorded at 500 miles per hour), and even huger mysteries (where, exactly, the danger zones are for natural disasters). How can all these big numbers and concepts make more sense? Infographics! The charts, maps, and illustrations in this book tell a visual story to help you better understand key concepts about natural disasters. Crack open this book to explore mind-boggling questions such as: • How can scientists accurately predict natural disasters? • What were some of Earth's biggest, freakiest, and deadliest disasters? • How can you protect yourself in the event of a volcano, an earthquake, or a tsunami? The answers are sure to shake you up!"

Book Information

Series: Super Science Infographics

Paperback: 32 pages

Publisher: Lerner Publishing Group (August 1, 2013)

Language: English

ISBN-10: 146771593X

ISBN-13: 978-1467715935

Product Dimensions: 6.5 x 0.2 x 8.8 inches

Shipping Weight: 3.2 ounces (View shipping rates and policies)
