Customer Reviews

It is okay. However the print is incredibly small, probably 4 pt. I purchased them for our study group which had a lot of teens. Their young eyes seemed to do fine with them. I would have found them impossible to read. Thank heaven for kindle versions.

Great price. I gave it away to a friend who wanted to study the Bible. The print is pretty small and the margins are small as well. But it will do to help someone just starting to study the Bible.

Bought so each of the children in our Kids Club have the same version and that memory verses

were the same when they were presented. The only thing I wish was that the print size (7) was a few points higher and the price was okay too. The kids do not seem to have any problems with it. But otherwise they are okay.

Pros: Super inexpensive. Cons: Get your ready glasses ready because the print is so small you will struggle to read it. The page are tissue-paper thin also. But what can you expect for \$4 I guess.

I like the translation. The quality could be a bit better, but not expected in light of the price necessarily.

The text is too small for my taste, but this is great for the cost.
