A Conceptual Guide To OpenOffice.org 2 For Windows And Linux

Synopsis

A Conceptual Guide to OpenOffice.org 2 was written by an educator who is as passionate about lifelong learning as he is of the software applications he uses and teaches. The book includes ten hands-on lessons that walk users step-by-step through the creation of various documents using the open source office suite. For users who wish to find specific instructions quickly and easily, four quick reference guides are also provided for each of the major applications bundled with OpenOffice.org 2. Internet access is required to download the necessary lesson files and free OpenOffice.org software.
