On The Path Of The Immortals: Exo-Vaticana, Project L. U. C. I. F. E. R. , And The Strategic Locations Where Entities Await The Appointed Time

Synopsis

Following the release of their international best-seller, *Exo-Vaticana*, Thomas Horn and Cris Putnam were inundated with requests from around the world to be interviewed on radio, television, and in print media. What they discovered sent shockwaves through Christianity concerning the Vatican's advanced telescope, which sits on top of Mt. Graham in Arizona (USA) where the Jesuits admit they are monitoring something approaching the earth. After the author's initial report was published in *Exo-Vaticana*, the pope's top astronomer took to the airwaves and on the Vatican Observatory website to try and explain the role that he and other church astronomers are playing with regards to emerging ET Friendly theology, their association with the LUCIFER device at Mt. Graham, and their developing doctrines concerning extraterrestrial life and the impact it may have on planet Earth's religions; Christianity in particular. Now, armed with fresh information from the native peoples (that failed before a federal appeals court to stop the construction of the Vatican's observatory on one of their four holiest mountains), the authors set out with cameras and field investigators to unearth their most astonishing discovery yet. The mountain is said to be a portal, a gateway to another dimension. And, as the Vatican knows and the authors uncovered, it is not the only one. NOW, FOR THE FIRST TIME, ON THE PATH OF THE IMMORTALS REVEALS... *Unveiled! What Mt. Graham really is, and why NASA and the Vatican are there *Disclosed! What the Bible says about gateways and the beings that wait behind them *Discovered! Scientific evidence of, and signals from, life beneath the surface of the earth *Found! The ancient stargates and their association with vortex manifestations *Revealed! The role of CERN's Large Hadron Collider and its search for a portal *Uncovered! Gobekli tepe, Baalbek, and the secrets of the coming immortals *Deciphered! The worldwide grid that ties them all together *Exposed! The occult's countdown calendar for the return of their gods *Unearthed! Giants, cryptids, and their mysterious connection with gates In *On the Path of the Immortals*, internationally acclaimed, investigative authors Thomas Horn and Cris Putnam continue the greatest investigation of our time by exposing the facts kept hidden from the public by elitists and intellectuals who are planning mankind's assimilation under a coming savior, one whom the prophet Daniel foresaw as an alien god.

Book Information

Paperback: 400 pages

Publisher: Defender Publishing LLC (June 1, 2015)

Language: English

ISBN-10: 0990497453

Customer Reviews

This third instalment from Tom Horn and Chris Putnam takes us on a magical mystery tour through archaeology, astronomy, mythology, physics, politics and religion - and that's just the first chapter. The theme of this book is portals or gateways and the things and beings that come through them. Every ancient human culture has creation myths including stories of giants and monsters; of gods and demons that came from "out there" to cause havoc or to protect humanity from these monsters. Ancient petroglyphs depict tiny people running away from giants with 6 fingers and 6 toes. Archaeologists around the world continue to uncover strange cities carved into almost inaccessible cliffs or hidden underground. Entire populations seem to have disappeared suddenly from their settlements - sometimes leaving their possessions behind. The authors contend that these ancient myths are literally true: that giants and monsters indeed arrived here, many thousands of years ago, through various gateways. When they got here they set about corrupting all of creation: hunting humans for food; engaging in genetic manipulation of animals; teaching humans magic and war. Ancient myths tell us that these monsters were contained by the worldwide flood in Noah's day, but returned after that. Indigenous American and other cultures predict that these beings will return to the earth to cause havoc before the end of time. From the Middle East we hear reports that US troops invading Iraq headed directly for the Baghdad Museum and removed items from it within hours and well before the publicised looting by locals. What could that mean? What ancient artefacts were the Americans after, and why did they want them? On the Path of the Immortals is packed with detail.

As usual, this book by Thomas Horn and Chris Putnam which purposes to convince the public that the Roman Catholic Church and the USA are rooted in and driven by Masonic occultism in league with UFO entities who are synonymous with the fallen angels of Genesis (whom the authors are

calling the Immortals and are identifying with the giants and heroes of old mentioned in canonic and non-canonic Holy Scripture as well as in ancient mythic literature of the Eastern and Western worlds) is, like their other books along these same lines, full of fascinating, recondite and occult information that I think most readers would find informative, exciting, and thought-provoking. The focus here is chiefly on portals and the probable gateways in various parts of the world where spirits of the Immortals have been accustomed to come and go between differing planes of existence. The authors provide a long discussion about recent scientific thought that posits the reality, according to string theory, of planes of existence, and how black holes may very well be portals of entrance and exit between realms. As I understand what they say, the expensive CERN project is partly an attempt to scientifically create a portal that allows the coming in and going out of Immortals in our earth realm. (But they don't berate CERN as much as they berate the Catholics with their telescope on Mt. Graham---which I've heard was not named LUCIFER by the Catholics, after all---where astronomers watch for evidences of UFOs and ETs and some mysterious something which is approaching the earth! What is it? What is it like? If, as Mr.
