Neil Armstrong (People We Should Know, Second (Paper))

Synopsis

On July 20, 1969, Neil Armstrong took one small step into the history books as the first man to set foot on the surface of the Moon. This landmark achievement became one of the defining events of the 20th century, capturing the attention of people around the globe. Although Armstrong retired from his career as an astronaut shortly after the historic event, his legend still lives on.

Customer Reviews

I got this for a 3rd grade book report. It presented the information in an interesting way and provided plenty of photographs to keep a child's interest. I enjoyed it and learned a lot as well. I would recommend this to anyone who needs a quick biography of Neil Armstrong.
