Speaking To Teenagers: How To Think About, Create, And Deliver Effective Messages

Synopsis

Get ready for a crash course in effective communication. More than just a book on how to do talks, *Speaking to Teenagers* combines the experience and wisdom of two veteran youth ministry speakers, along with insightful research and practical tools, to help you develop messages that engage students with the love of Christ and the power of his Word. Whether you're crafting a five-minute devotional or a 30-minute sermon, *Speaking to Teenagers* is essential to understanding and preparing great messages. Together, Doug Fields and Duffy Robbins show you how they craft their own messages and give you the tools to do it yourself. They'll guide you, step-by-step, through the process of preparing and delivering meaningful messages that effectively communicate to your students. Fields and Robbins walk you through three dimensions of a message—the speaker, the listener, and the message itself—and introduce you to the concept and principles of inductive communication. You'll also get helpful tips on finding illustrations for your talk and using them for maximum impact, as well as insights on reading your audience and effective body language. As *Speaking to Teenagers* guides you toward becoming a more effective communicator, you'll find that this book's practical principles will positively impact the way you view, treat, and communicate to teenagers.

Customer Reviews

Speaking in front of children is scary, even though they are fairly forgiving. Speaking in front of adults is nerve-racking, especially if most of them are older than you. But, speaking in front of teenagers is worse. It is like swimming with sharks, while you are covered with blood and have

pieces of meat attached to your feet. At least that is how some people feel about the idea of speaking to teens. But thanks to Doug Fields and Duffy Robbins (and their book "Speaking to Teenagers: How to think about, create, and deliver effective messages") you do not have to feel this way any longer. Fields and Robbins combine their many years of experience with a large collection of research to provide a valuable resource to any adult wanting to communicate effectively with teens. This book is filled with humor, graphs, pictures of bridges, insight, real-life experience, and tips. Though the book flows from start to finish, it is possible to find the chapter dealing with an area of speaking where you need help and find the assistance you need to improve. The first section covers the thinking part of the message preparation. This includes some great information on what needs to go into an effective message (like how to build the bridge from you to the students you want to reach). Although this step in message preparation might seem optional - Fields and Robbins build a convincing argument to its importance. The second section focuses on how to create a message that STICKs. Here you'll learn the importance of Study, Thinking, Illustrating, Constructing, and Keeping focused. Finally, the last three chapters discuss how to deliver an effective message (everything from your vocal pitch and hand gestures to the set-up of the room in which you will be speaking).
